

# WEATHER TOUGH RANGE

## ENCLOSURE

The WeatherTough enclosure is rated **IP65**. Made from vandal resistant cast Aluminium Alloy with heavy duty powder coating on the enclosure. You have a choice of powder coated colours: Signal Red, Yellow and Space Blue.

**Size:** H 321 mm x W 205 mm x D 123.5 mm - **Weight material:** 5kg cast aluminium

## IP RATING

**IP** is an acronym for **Ingress Protection**.

Each IP rating has 2 numbers. The first number refers to the protection against solid objects (dust, etc) and the second number refers to liquid protection.

The **Weather Tough** range is rated at: 6 (Dust tight) 5 (Protection against water jets)

The **Weather Tough** Range is designed for Australia's rugged locations and toughest conditions.

It is well suited to motorways, tunnels, bridges, mining and construction sites as well as many business and commercial settings.

The WeatherTough enclosure is rated **IP65**. Made from vandal resistant cast Aluminium Alloy with heavy duty powder coating on the enclosure.

Choose from the following options: VoIP, Line Powered and 3G/GSM - Handset or Loud speaking - Armoured Cord or Rugged Curly Cord. The Weather Tough can be customised to any requirements. Please contact us for more information and to discuss the options.
